Subject: Update - Pebble 404 coordination with the Corps

Hello all,

Since we didn't have time to cover this at Wednesday's career leader meeting and things have continued to evolve on this topic, I wanted to send a brief follow up message about our work and engagement with the Corps on the 404(b)(1) Guidelines analysis.

We recently confirmed that the Corps would like to use time set aside for the technical meetings to discuss 404 issues with us next week (Thursday 3/12 and Friday 3/13). There is a common interest in both agencies sharing respective thoughts on 404-related topics (starting with discussion related to the LEDPA) and an acknowledgement that our approach/roles may need to be further defined as our work with the Corps continues over the coming months. In conversation, Dan and Sheila have agreed to let next week's meetings play out and then reevaluate how best to coordinate moving forward.

Thanks,

Matthew Szelag | Water Quality Standards Coordinator
